

Job Position

Skilled Nursing (RN/LPN)

POSITION DUTIES:

- Administer nursing care to ill, injured, or disabled patients
- Establish patient treatment plans
- Monitor and report changes in patient symptoms or behavior
- Communicate with collaborating physicians or specialists regarding patient care
- Educate patients about health maintenance and disease prevention
- Facilitate referrals to other healthcare professionals and medical facilities
- Maintain accurate patient medical records
- Provide advice and emotional support to patients and their family members

In addition to performing visits and completing coordination of client care, the Registered Nurse (RN) is the point of contact for all disciplines involved with providing care to patients and oversees the frequency of visits for the episode. Performing accurate OASIS collection, ensuring the medication profile remains current, ensuring lab values have been reported to the physician timely, attending weekly case conference and monthly case manager meetings as requested by Clinical Manager are key responsibilities of this role.
